COURT CALENDAR-THIS DAY. SUCREME COURT-GENERAL TERM.-Nos. 4, 15 

THE LOWBER BARGAIN-ITS PRESENT POSITION.

A portion of the decision of Judge Ingraham in favor of Lowber holds, in substance, that the Controller, as a tax-payer and corporator, is not considered as havbeard, except by consent of the Counsel to the Corporation. The authority obtained by him from the Attorney-General to use the name of the People in a case is not allowed as entitling the Controller to be . beard. In order to appeal, and procure a stay of the execution, it is necessary for the City to give bail in \$400,000 double the amount of the judgment.

Mr. Whiting, who has ably defended the city in this case, under direction of the Controller is excluded; order to have the case opened, or to get a stay of the execution, it is necessary that the Common Council adopt a resolution to that effect, and authorize the name of "the Mayor, Aldermen and Commonalty to be used. A fair hearing in regard to the question of the title of the mud-hole sought to be forced upon the taxpayers cannot be had until such action is taken. It is important that measures of the kind be adopted ediately, for, if neglected, the execution will have to be satisfied, even if it requires the sale of the City Hall and Park, which possibly it may. Action mus therefore be speedy to be of any service. The execution, if pressed now, can be paid only by the sale of Corporation property, for no appropriation has been made to meet the Lowber demand.

There is no revenue which the Common Council can articipate. The Controller has no authority to borrow, to issue stocks or bonds, as the charter expressly says the Common Council shall not borrow any money on credit of the Corporation, except in anticipation of the revenue of the year in which the loan is made. The tax ordinance for raising \$8,000,000 for the year 1858, appropriates every dollar to specific objects, and declares that no portion shall be used for purposes other than which it was raised.

The Controller, to Lowber's demand for payment a not pay a dollar of the sum. Lowber was astonished to find that the Common Council were prohibited from borrowing, but seemed determined to have the \$200,000 out of the city shortly. The Controller pointed out the only way to have the demand satisfied, and that was to sell the Park and City Hall. The Controller has done his utmost against this outrage on the tax payers, and all that remains for him to do is to hope that the Common Council will authorize the name of the Mayor, Aldermen and Commonalty to reopen the

is looked for with considerable anxiety in this case. The Controller has acted for the City, opposed by the Coursel to the Corporation, as well as the Common Council. The latter, with Mr. Bustoed, instead of defending the rights of the tax-payers, have openly taken the part of Lowber, in his sale of land, a large portion of which is believed to be the property of the State.

In connection with this subject, it is not out of place to State that up to 1857, an ordinance existed providing that, when necessary, the Controller might employ counsel to assist the Counsel to the Corporation, by consent of the Mayor, but when the ordinances were being revised under the new charter last Fall, that section was stricken out, and the sole power vested in the Corporation Counsel to employ other counsel.

The result of taking so necessary a privilege from the Controller, is seen in the Lowber case.

Mr. Busteed is also Counsel for the Supervisors, a salary, as allowed in the State law, not to exceed \$2,000 a year. In that law, Mr. Sickles saw the importance when it was being framed, of having Ma Busteed provided for. Mr. Sickles could judge of the ardness duties of the Connsel to the Corporation, having city cases to attend to for him when in Albany, For attending these cases, Mr. Sickles got out of the City Treasury \$2,000; one good turn deserving another. The following is the Controller's communication to

the Mayor on the subject. The Mayor has laid it before the Common Council, and the Finance Committee are expected to report at the next meeting:

DEPARTMENT OF FINANCE, CONTROLLER'S OFFICE. }

DANIEL F. TIEMANN, Mayor of the City of New York,

DEAN SIR: By a decision rendered by Mr. Justice Ingraham at a Special Term of the Supreme Court on the 11th inst., the motion to dismiss the complaint in the case of The People and Azzriah C. Flagg agt. the case of The People and Azarian C. Flagg a Robert W. Lowber and the Mayor, &c., of New-Yo was granted, and it may be that the judgment for \$196,000, and interest, which was entered up on the 42th day of June, 1857, against the Corporation of this city, in favor of Mr. Lowber, has thereby been restored to full.

this city, in favor of Mr. Lowber, has thereby been restored to full force.

For more than a year past, with the aid of James R. Whiting, esq., I have endeavored to prevent the collection of the execution in the hands of the Sheriff to satisfy the claim of Mr. Lowber, believing that the land he proposed to sell was not worth the sum which the Corporation were to pay for it, and also believing that Mr. Lowber had not a good title to the major part of it; and in all the proceedings in Court relating to it from August, 1857, until last week, I have been so far sustained by the Justices of the Supreme Court, that they allowed my standing as Controller or as a Corporator and taxpayer to maintain an action to test the regularity of the proceedings in relation to the purgularity of the proceedings in relation to the pur-use from Mr. Lowber, and also the sufficiency of the tle which he proposed to deliver.

Mr. Justice Roosevelt on the 28th September, 1857,

Mr. Justice Roosevelt on the 28th September, 1857, made an order setting aside and vacating the judgment and execution obtained by Mr. Lowber, and providing for a trial on the merits of the case. From this order Mr. Lowber appealed to the Judges holding the General Term of the Supreme Court, who, on the 7th December, 1857, with Justices Mitchell, Clerke and Peabody present, modified but substantially affirmed the decasion of Mr. Justice Roosevelt, and ordered a trial on certain conditions, which were compiled with by me. Mr. Lowber afterward moved to dissolve the injunction, and the case was argued at full length before Mr. Justice Davies, who decided that the nijunction order should restrain any further proceedings in tion order should restrain any further proceedings in the suit instituted by Mr. Lowber until the final deter-mination of the sun allowed by the order of the General Term.
In June last argument was had before Mr. Justice

Ingraham at Special Term, by Jas. R. Whiting, esq., on my behalf, and Messrs, Noyes, Busteed, Barboar and Cowles on behalf of Mr. Lowber, and Mr. Whiting endeavored to have the case tried on its merits, in a cordance with the order of the General Term. Th opporing counsel moved and argued to dismiss the complaint, on the ground that since the General Term had made the order allowing me as a tax-payer or corporator, or otherwise, to maintain the action, another decision had been made by another General Term, at which Justices Balcom, Clerke and Sutherland prewhich Justices Balcom, Clerke and Sutherland presided, that no tax-payer could maintain such an action; and Mr. Justice lagraham, in his decision on the 11th instant, states that under that decision he would be bound to dismiss the complaint; and after a long argument on the subject of fraud by the Common Conneil not being charged in my complaint, and emitting to pass upon the important averament made by me that Mr. Lowber had no title to the land he proposed to convey, he does grant the motion to dismiss the complaint.

I and those friends who have asided and assisted me

I and those friends who have aided and assisted me in endeavoring to protect the citizens and tax-payers of this city from the evil effects of this judgment for the collection of \$200,000 for the purchase of property not worth the sum, even if a good title to the whole of it could be obtained, are new unable to proceed further, and as there is no money in the Treasury applicable to the payment of the judgment or the purchase of the property, and no authority to borrow any for such purpose, it becomes a direct question whether the Corporation will allow the Corporate property to be sold to satisfy a judgment obtained for the purchase of land, two-thirds of which the General Term of the Superior Court have already decided Mr. Lowber has not title to, or whether the Mayor, Aidermen and commonably of the City of New-York, in their corporate capacity, will immediately take steps to arrest the judgment and execution, and have the question of title tried. I and those friends who have nided and assisted me

"If they believe the contract to bave been made "fraudulently or illegally." Suppose there was no fraud, the fact that Lowber has no title to two-thirds of the land proposed to be sold makes the contract illegal, in other words, Mr. Lowber cannot enforce such a contract. Is it legal for the Corporation to buy land of Mr. Lowber to which he has no title and tax the citizens to pay for such land!

The People of the State of New-York have already asserted their title to the land outside of West street.

The People of the State of New-Tork have already asserted their title to the land outside of West street, in front of Washington Market, and the cloquence and argument of the same counsel who defended Mr. Lowber has fulled to convince Mr. Justice Davies that the Corporation had a good title to it. The General Term of the Superior Court has already decided that Mr. Lowber has no title to the land east of Tompkins street. and should the People of the State assert their claim to it, I feel confident that no arguments of counsel could convince the Courts that Mr. Lowber had as good a title to it as the Corporation have to the West

Washington Market ground.

To you, as Chief Magistrate of this city, I make this statement of facts, that such action may be advised by you as in your judgment may seem proper, and I accompany it with the documents and communications accompany it with the documents and communications on the subject which were presented by me to the late Common Council, and also with the printed case and points submitted to the Court by Mr. Whiting, and would refer in addition to pages 16, 17, 70, 71, 72, 73, 74, 75 and 76 of my annual report for the year 1857.

several members expressed the opinion that it was advisable to postpone the nomination for the present. with the understanding that a true Republican and a sound and influential man should be selected when the nomination was made. If, in the mean time, a fusion | 100 with the Americans was deemed practicable, it might be soarranged as to give them some of the other can-

A motion was eventually carried to adjourn to Monday, October 11, unless the officers thought proper to call the Convention together at an earlier . 20 day: the advertisement of such call to be published at least two days in THETRIBUNE and The Exening Post. The Convention then adjourned.

DEMOCRATIC CONGRESSIONAL NOMINATIONS.-The Hard (or Vanderbilt) Democracy assembled in Convention at Sharp's Hotel, in Myrtle avenue, vesterday evening, for the purpose of nominating a candidate for Congress in the Hd (Brooklyn) District. John Doberty occupied the chair. Full delegations were present. An informal ballot, being taken, resulted as follows: Edwin C. Litchfield, 24; James H. Hutchins, 17; N. B. Morse, 5; Samuel D. Morris, 4; Blank, 2; Total, 52. A formal ballot was then entered into, and, the names of Messrs. Morse and Morris having been withdrawn, resulted as follows: Litchfield, 29: Hutchins. 23. Mr. Litchfield was thereupon declared unanimously nominated.

The Soft Democracy, or Bradley wing of the party, met at Tammany Hall, in York street, and, after or ganizing, nominated George Taylor for Congress by acclamation. Mr. Taylor is the present representative of the Hd Congressional District.

QUEENS COUNTY AGRICULTURAL FAIR .- Great preparations are being made at Flushing, L. I, for the County Fair, which is to be held in that place tomorrow (Wednesday), the 22d inst. From present appearances this exhibition will be the largest and most interesting one yet held by the Society. In addition to the usual show of horseflesh, a course has been formed upon the grounds, upon which the speed and bottom I any horses that may be entered will be tested. The inhabitants of Flushing generally have taken great interest in this, the Seventeenth Annual Exposition of the Society, and nothing will be wanting on their part to make it complete in every respect.

ALLEGED HIGHWAY ROBBERY .- Mr. John Shaffer Atteged Highway Robbert.—Mr. John Shaffer of Newtown, while driving into the city on Monday night with a load of garden truck, was stopped at the bridge near Greenpoint by two young men, who wanted to ride. Mr. Shaffer refused, when one of them strack him with a club. He called for assistance, when one of them, named William Marshal, was arrested by Officer Morris of the Seventeenth Ward, and taken to the Station-House. The officer then went in pursuit of the other party, and giving infernation at the Fifth District Station-House, the officer's strested James Fitzpatrick or suspicion of having been the other party. They were both held for examination by Justice Fox.

THE WATER WORKS .- The Common Council were The WATER WORKS.—The Common Council were to have met on Monday night to receive the report of the Committee on the subject of the covered canal on the line of the Brooklyn Water Works. The Committee, it is understoood, have prepared their report, and it is believed to be adverse to the improvement or alteration. There was no quorum present, however, and the Board adjourned to Thursday evening.

NEW COUNTERFEITS.—New counterfeit three-dollar bills, purporting to be issues of the Merchants Bank of Bangor, Maine, have recently been extensively cir-culated in this city.

TUESDAY, Sept. 21-r. M. The movement at the Stock Board continues to be almost exclusively confined to street operators. The business of the commission houses is of a retail character, and the bulls are obliged to fight their battles without the aid of the public. This aid is every day likely to be extended, as the business of the country at large is improving, and other and more legitimate uses for capital is found than stock gambling. It cannot be denied also that the impression is still very general that the quotations for rail-road shares are sustained by the operations of the street at points above their intrinsic value. The public has not yet recovered from the shock to confidence given by the suspensions of dividends and great reduction of earnings of the past twelve months, even on the most popular routes. The infamous plundering and mismanagement, in many cases has largely added to the feeling of distrust with which nearly all railroad securities are looked upon, and it will be many years before they have the currency they once had. For these rensons, among others, and the fact that the business in railroad securities forms the bulk of the transactions at the Board, it can hardly be expected that any strong stock speculation for the rise, such as bas been frequently seen in Wall street, would receive any important outside impulse. The market must continue for the present to be a two or three \* cent market, operated upon mainly by the speculative members of the Stock Board. There was considerable buying to-day to cover shorts, but the bears showed willingness to put the stock out again on their options at the usual difference. The market was heavy before the opening, Rock Island selling at 661. and Central at 77%. After the opening, some of the shorts being the principal buyers, the market became firmer, the bulls bidding with some spirit without buying much stock. Rock Island continues to be the prin cipal object of attention of the bears, but improved ? V cent on opening sales. New-York Central was also firmer at the close. Reading was well sustained. The bear operations of last Friday in this stock does not yet look very promising. Erie remains quite stead. It is evident that either the street has no confidence in the settlement of the questions in dispute hetween this Company and the Central, or that settlement is not looked upon as likely to operate favorably upon the fortunes of the road. At the Second Board the foreign news had at first a favorable influence, and the market opened with some firmness. At the close, however, it was dall and heavy. The closing prices do not vary much from those of yesterday. They are: Erie, 17@ j. Central, 77 678; Southern, 231 21; Toledo, 33 a 33; Hudson River, 27 a 27; Rock Island, 66;

The business of the Clearing House, to-day, was \$16. 326,400 and over. The Vigo will take about \$400,000 in gold, and the Asia, perhaps, as much more. The semi-annual coupons on the land bonds of the Hannibal and St. Joseph's Railroad will be paid at the office of Messrs, Duncan, Sherman & Co., on the 1st of October. James Punnett, Esq., the Cashier of the Bank of America, was this morning unanimously elected President of that Bank, to fill the vacancy occasioned by the death of George Newbold. William L. Jenkins, Esq., Assistant Cashier, was elected Cashier, to fill the vacancy occasioned by the promotion of Mr Punnett. A large auction sale of millinery goods this morning, went off with fair spirit and at good prices. A number of stockholders of the Nicaragua Transit Company have combined to commence a suit against Commodore Vanderbilt, for the recovery of the assets of the Company, supposed to be in his hands. Stockholders who wish to join in this suit should call upon

the Receiver, Mr. Colden Murray.

The Buffalo Courier says the International Bridge will now surely be built, as the Company ask of Buffalo no further guaranty than that of \$50,000, to make up the deficiency of the annual interest, at 6 F cent, on two and a quarter millions. The tubular bridge of Mr. Ross is to be constructed. That gentleman offers given by the railway contracts for an annual rent of \$100,000, and the city's guaranty to make good any deficiency in the revenue of the bridge to increase that oum to \$150,000. The city takes no risk on account of the railway companies. On the other hand, it has all the benefit to be derived from the carriage and foot travel, and from any new contract that may be made with the Great Western, or with any other than the Niagara and Detroit Rivers, and the Buffalo and Lake Huron Railway Companies, while the revenue accruing from these sources may diminish the city's liability below \$50,000, and possibly cancel it altogether.

The Bridgeport Farmer of Saturday says the re-ceiver of the Merchants' Exchange Bank has made his report to the Superior Court. He has received assets enough to redeem all the bills of the bank that have been presented, and also to pay off about 80 @ cent efather claims against the bank. The Judge extended the time for receiving the issues of the bank until yesterday, as some \$200 were sent in after the appointed time had expired. The are some \$7,000 or \$8,000 still in the hands of the community. Mr. Noyes, Bank Commissioner, with Mr. L. G. Peck, his Court. Mr. Peck said that when it was thought that an injunction would be likely to follow the proceedings of the Legislative Committee, the Board of Directors voted to assign to themselves, as individuals, all the bills receivable which the bank possessed, for the ostensible purpose of reising \$20,000. The bills receivable, with the collateral which belonged with them, amounted to \$110,500, and comprised all the assets of the bank, save some \$15,000 in cash, which fell into the receiver's hands. He applied, therefore, for an order to bring the Directors and the assets they hold into Court. The order was granted, and the Directors were summoned. Three of them appeared yesterday afternoon. Not much information beyond what is already known, could be gathered from their testimony. The Cincinnati Gazette of the 17th says:

The Command Gazatz of the 17th says:

"There was a very good demand for money to-day, and discounts were not so easy as yesterday. Some of the houses report an inability to take all the good paper offered, but this was an exception, and as a general thing first-class paper passed readily at 10 4 cont. The offerings of good paper in the street, having a Bank credit, continue light."

The Providence Journal reports the sale at auction of the Steam Cotton Mill in that city, for \$52,000, and the tax assessed upon it for the present year, amounting to about \$1,000 more. There are 15,000 spindles and 368 looms, with all the usual preparation. The

assessed value of it by the city last year was \$160,000.

market for the coarser descriptions is rather easy, and to effect considerable sales concessions are made coming within the inside range of our quotations. The better qualities are held firmly, with a disposition to advance prices.

We hear of nothing new relative to the business this Fall, and dealers seem to think that there will be a light trade.

Receipts the past week have been quite light, dealers having, as we stated they would last week, diminished their orders.
